PROFESSIONAL CLINICAL EXPERIENCE

- 2004 - University of Colorado School of Medicine Faculty Appointment: Assistant Clinical Professor – Providing consultation services to the health care providers working in the University Sports Medicine Center. Psychological services are provided to athletes and non-athletes who present with some, but not limited to the following issues: chronic pain, the emotional consequences to injury, depression, performance enhancement and the treatment of young athletes and addressing family dynamics as indicated.
- 2002 - PRIVATE PRACTICE - providing individual and group therapy for people experiencing some but not limited to the following conditions: mood disorders

(major depression and bipolar disorder), drug/alcohol addiction, chronic pain, psychological conditions secondary to medical conditions (i.e. autoimmune disorders) and personal growth. Within the area of sport psychology – classical performance enhancement training and treatment of conventional counseling issues specific to athletes.

- 2001 - 02 DEPARTMENT HEAD - SPORT-EXERCISE PSYCHOLOGY PROGRAMS, Argosy University/Phoenix, Phoenix, AZ.  
Primary responsibilities include management of the Masters of Arts Program in Sport-Exercise Psychology, faculty evaluation, advisement of doctoral students in clinical psychology who specialize in sport-exercise psychology and teaching in the clinical and sport-exercise psychology programs.
- 1999- 01 PSYCHOLOGIST, U.S. Olympic Committee, Colorado Springs, CO.  
Working for the U.S. Olympic Committee with the primary assignment to assist U.S. Speed Skating prepare for the 2002 Winter Games. Some of the responsibilities include: providing psychological services to enhance performance, assisting coaches with the implementation of psychological skills in the training programs, providing clinical services when indicated on an individual and family basis, coordinating services with the other sport sciences to enhance adherence to recommendations, traveling for national and international competition and providing services during training camps. Other responsibilities have included providing workshops to either coaches or athletes from a variety of sports and developing biofeedback services in the program.
- 1996-99 PSYCHOLOGIST, Denver Health Medical Center, Denver, CO.  
Program Co-Director and Clinical Supervisor working on an outpatient basis in the Behavioral Health Services Division of the hospital. The division provides individual, group, and family therapy to children, adolescents and adults. As a clinical supervisor, responsibilities included overseeing and conducting intake evaluations, screenings and assessments in the walk-in clinic that served people with both medical and psychiatric conditions. As the Co-Director of an Intensive Outpatient Treatment Program primary responsibilities included developing the program, supervision of staff (candidates for licensure, psychology interns, practicum students, chemical addiction counselors and nurses), delivering services, monitoring patient care, evaluation of the program and presenting results to the medical director and staff. The program was based upon the American Society for Addiction Medicine's Patient Placement Criteria for people who have substance use disorders and/or dual diagnoses.
- 1995-1996 POSTDOCTORAL FELLOW, Stanford University Medical Center, Stanford, CA.  
Working for the Department of Psychiatry and Behavioral Sciences in the Alcohol and Drug Treatment Center. The position involved working on an outpatient basis with adults and adolescents. Responsibilities included: conducting initial

interviews to assess for the appropriate level of care, providing consultation services to the inpatient units at the hospital, conducting individual, group, and multi-family therapy. Other activities involved developing a relapse prevention program, and providing a leadership role in the development of the adolescent substance abuse program.

- 1994-95 CLINICAL PSYCHOLOGY INTERN, Denver General Hospital, Denver, CO.  
First six month rotation involved working on an inpatient unit for adolescents. Responsibilities included conducting initial assessments, individual, group, and family therapy, placement and psychological evaluations. A primary focus was the treatment of patients with a dual diagnosis.
- The second six month rotation (3/94-8/95) involved working in the outpatient consultation service and being involved in a variety of experiences that included: individual outpatient therapy with adults and adolescents; 1 day per week in the psychiatric emergency room; working in the area of behavioral medicine using biofeedback and hypnosis; working in the substance abuse clinic doing individual and group therapy with polysubstance abusers; and attending seminars to improve skills with neuropsychological evaluations.
- 1993-94 PSYCHOLOGIST ASSISTANT, Rubicon Inc., Richmond, VA.  
Working in a residential substance abuse program for adults. Responsibilities included conducting intake evaluations, individual therapy, psychological assessment, crisis intervention, and providing consultation for the rehabilitation counselors.
- 1992-93 PSYCHOLOGIST ASSISTANT, Central State Hospital, Petersburg, VA.  
Working on a multidisciplinary treatment team that provides inpatient treatment to adolescents and their families. Responsibilities included conducting intake evaluations, psychological assessment, individual, group, and family therapy.
- 1992 SUPERVISOR, Central State Hospital, Petersburg, VA.  
Supervising a master's level student with the administration, scoring, and interpretation of intellectual and personality testing.
- 1991-93 CLINICIAN, Private Practice, Richmond, VA.  
Completed a two and a half-year practicum in psychoanalytic psychotherapy under the supervision of Renate Forssman-Falck, M.D. This involved outpatient treatment of a patient with the diagnosis of borderline personality disorder.
- 1991-92 CLINICIAN, University Counseling Services, Richmond, VA.  
Provided individual therapy on an outpatient basis; conducted intake evaluations; process observation of group therapy as part of a nine-month practicum.

- 1990-91 CLINICIAN, The Center for Psychological Services and Development, Richmond, VA.  
Provided individual and family therapy on an outpatient basis; conducted intake evaluations as part of a twelve-month practicum.
- 1989 CLINICIAN/RESEARCH ASSISTANT, The Olympic Training Center, Colorado Springs, CO.  
Worked under the supervision of Shane M. Murphy, Ph.D. in the sport psychology department. Responsibilities included providing individual and group psychological services to athletes and conducting research.
- 1986-1989 MENTAL HEALTH TECHNICIAN, The Meadows Psychiatric Center, Centre Hall, PA.  
Worked on the adolescent unit where the focus involved inpatient psychiatric treatment to adolescents and their families. Responsibilities involved developing a therapeutic alliance with patients, conduct/facilitate groups, monitor behavior, develop behavior plans, and assist with treatment planning and chart progress.

#### CONSULTING EXPERIENCE

- 2012 - CONSULTANT, University of Denver Athletic Department – Providing performance enhancement services to various teams.
- 2011 - CONSULTANT, Lydiard Foundation – Working with Lorraine Moller (1992 Bronze Medalist marathon - [http://en.wikipedia.org/wiki/Lorraine\\_Moller](http://en.wikipedia.org/wiki/Lorraine_Moller)) to develop and present curriculum for coaches to become certified in Lydiard Training.
